Summary:

I am a **JavaScript Engineer** who loves designing and coding impactful web applications. My current tools of choice are **React and Node** and I'm always learning about the new technologies in the industry. I enjoy contributing to **open-source projects** and creating solutions. Looking to add value to a great company.

Recent Projects:

SmartBrain – A responsive web app that combines React, Node, Express, and PostgreSQL to create a beautiful and interactive facial recognition app utilizing the Clarifai API. (**HTML5, CSS3, JavaScript, React, Node, Express, SQL**)

Robofriends – A responsive web app built with React, Redux, and Tachyons. This was my first React app to get familiar with the library and using components and state management. (**HTML5, CSS3, JavaScript, React, Redux, Tachyons**)

Cat Website – A fun first website about my cat, Kenny. Uses basic HTML, CSS and Bootstrap. Learned about the basic building blocks with the help of the MDN web docs. (**HTML5, CSS3, Bootstrap 4**)

Additional Technologies Used:

Java, Python, SASS, Git, Bash, npm, Jira, GitHub, Webpack, Netlify, Heroku, Docker, AWS

Education:

Web Developer Bootcamp (July 2020)

Zero to Mastery Academy (Online)

CS50: Introduction to Computer Science (March 2020)

Harvard University (Online)

Computer Science: An Interdisciplinary Approach (May 2019)

Princeton University (Online)

Bachelor of Science - Biology (December 2012)

University of California, Santa Cruz

Work Experience:

Software Developer – Schiller Technology (Present)

- Design and develop interactive, responsive web apps
- Deliver products using latest technologies for fast and reliable performance
- Research current standards and documentation to ensure relevancy

Principal Investor – Schiller Investing (2018-2020)

- Managed small fund primarily in the index futures market
- Outperformed market returns on several quarterly reports

Accountant – Suntrek Industries (2016-2018)

- Process all invoices for California offices
- Reconcile all company credit cards
- Coordinate with project manager to verify received and shipped product

Leadership and awards:

NCAA Men's Tennis Team Championship winner, 2009

Team Captain of CIF Tennis Championship team, 2005

Knowledge gained:

- Keep motivated and create a productive work environment
- Work effectively as a team to accomplish difficult goals
- Maintain sharp focus and discipline throughout the day
- Exceptionally hard worker and fast learner
